

**So you want to make edits that aren't part of the website builder form.
In this guide we will show you how to make image changes for the oliometer (donation gauge on the home page).**

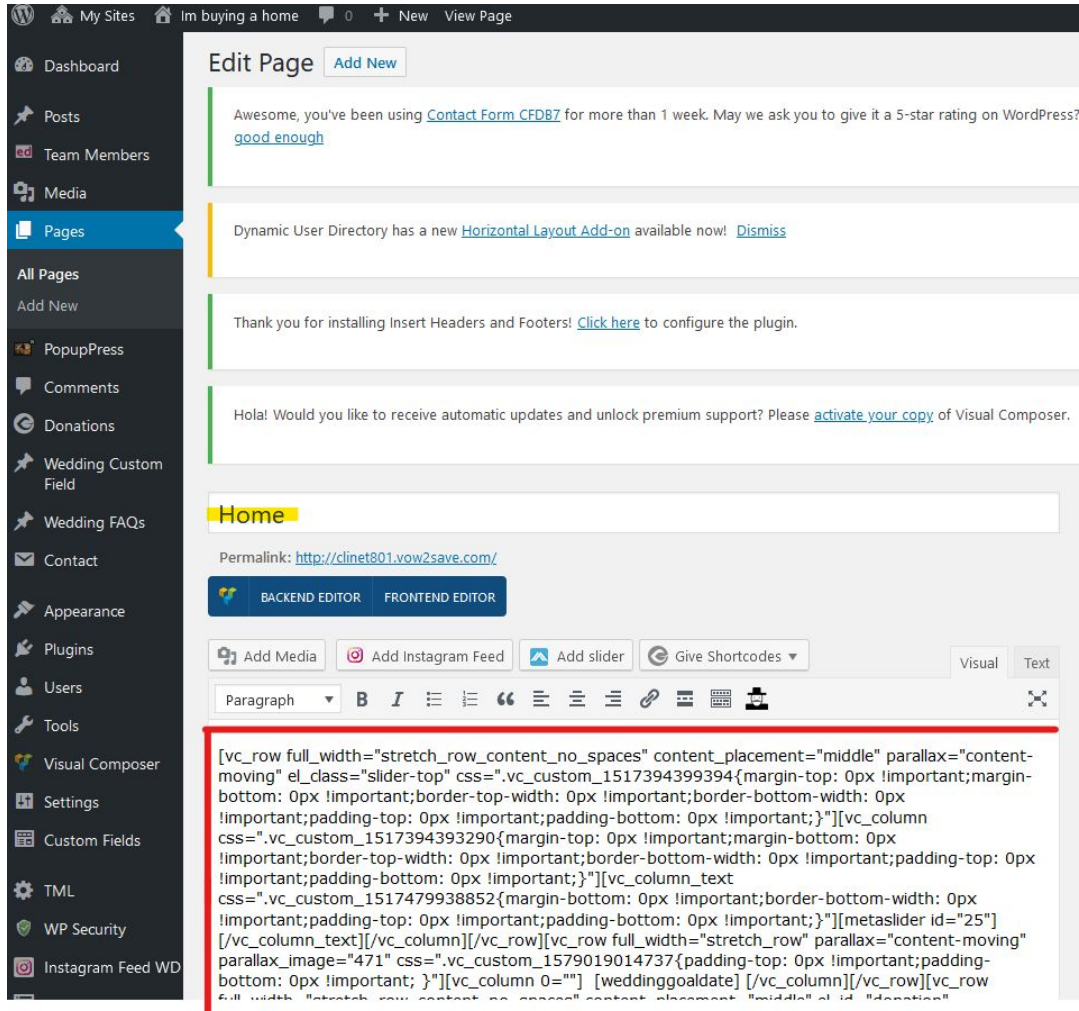

1. Login
2. Click on the home page

3. At the very top of your screen, click Edit Page

4. You should see something like this

The highlighted area shows that this is the homepage and the area marked in red is where we will be able to change our image. It'll be easy!

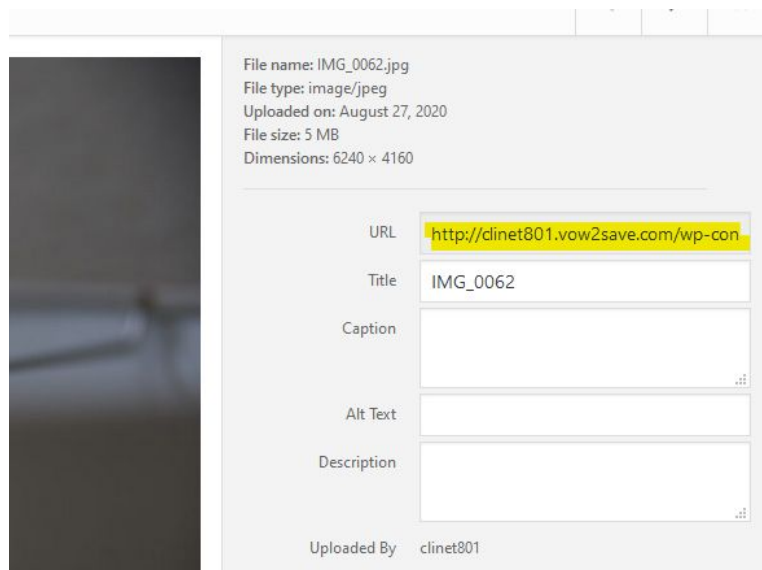

5. Before we can replace the image, we need to upload an image of our own. You can quickly upload pictures from the front dashboard, but you can also do it through the backend.
 - a. Click Media on the sidebar and **open in a new tab** (marked in red)
 - b. Click Add new (highlighted in yellow)
 - c. Upload your files (marked in green)

- d. Once the picture is uploaded, click on the image

- e. Copy the URL of the image and paste it into your notepad for future use.
i. Do this for all the images you'd like to add

Let's go back to the code that we will be editing

```

Paste your new URL where the old one was. This is for the Oliometer (the gauge that shows you how much money has been donated)
